Dear brother Garrison

3 Your very kind & fraternal letter came timely, and was perused with eager interest — as are all letters from your pen.

No I was not expecting an answer to my letter, before I should make my long desired call at your house on Sunday last. But the terrible Storm and blow of Friday & Saturday prevented the possibility of getting to the Depot (4 miles) to take the Cars for the city. The violence of the Storm & wind has not been equaled to my recollection for 20 years or more!

Well before many weeks I intend to knock the Skin of your door latch Pros

Providence permitting and accept
your welcome which is always so
hearty and cordial. And I am
hoping another Summer to have the
privelege of extending to you as hearty
a welcome to my home as you possibly
can bestow to my call on you.
Your sons told me last winter that
they would try to get you started to
visit Princeton last Season. but it seems
they were not Successful.
I thank you for your Kind Salutations
of the new year to Mrs Everett & myself.
I beg you to accept from us the same
with compound interest. I have read
& reread your Kind letter in presence of
choice friends & have deposited it amongst
the most valued papers I possess. from your
self & other dear ~~Spirits~~ Spirits. some of
whom have passed over the river. It seems
to me that no Reformation ever drew together
its friends
in more ardent friendship & undying af-
fection, than the American Anti Slavery

Reformation. And in my judgment no reform since the Christian Era has had more, yea not as much to do with the elevation of mankind the wide world over, as the one, that has knit our souls, and hearts, into perfect unison. I have not yet seen your masterly review of Freeman Clarks Toady Sermon. Friend Snow & others have informed me of its merits; but the copy of the Journal containing it I have not been able to obtain. Can you do me the favor to send me a copy, or get one for me if I may have the pleasure of visiting you. In relation to the political situation I feel intense interest. If Tilden is President farewell to freedom in all the Southern States, for twenty years to come; unless peradventure, the colored Republicans shall cut their way by sword & bayonet to obtain their rights not enjoyed now. May God forefend Tildens inauguration. I do not see how the Vice President can do otherwise

thun count 185 votes for Hayes.
But there is no rascality that the
Democratic members of Congress will
not practice to Inaugerate Tilden.
The Financial corruption of Grants last
Administration has greatly contributed
to this sad state of things. Otherwise
there would have been an immence
majority for Hayes. And yet there has
not been a tythe of the corruption in
Grants government that was practiced du-
ring of the last three Democratic admin-
istrations. But Democrats are blind to their
own sins and. Argus-eyed to Republican ~~faults~~
faults.. If Hayes is inaugerated I think the
Republicans of the South will be protected
& their ~~influence~~ rights will increase in most of the
States. and his Administration will be a
good one. I think you told me that friend
Wolcott visted you nearly every Sundays. How
would I thank the hands of W Wolcott. Whipple
& many other dear friends. who were in
the conflict with us to the end, Mrs Everett
joins me in kind regards to yourself & family.
I am dear brother affectionately yours forever
J T Evers
